PROFESSIONAL SUMMARY

Motivated 3rd year Computer Science student at The Copperbelt University with strong skills in programming, web development, system design, and problem-solving. Passionate about applying academic knowledge to real-world software development challenges and continuously improving technical expertise. Seeking internship and entry-level IT opportunities to gain practical industry experience and contribute to innovative projects.

PERSONAL DETAILS

- Date of Birth : 3rd March, 2004
- NRC NO : 396887/66/1
- Nationality : Zambian
- Religion : Christian

EDUCATION BACKGROUND

Bachelor Degree of Science in Computer Science (2023 – Present)

The Copperbelt University (CBU)

Department of ICT | Year 3 | Expected Graduation: 2027

Key modules: Data Communication, Programming, Web Development

Secondary Education (2018 – 2022)

Mufulira Secondary School

Grade 8 – 12

Primary Education (2011 – 2017)

Kasumba Primary School

Grade 1 – 7

PROJECT EXPERIENCE

1. Admin Assist: School Information System | Team of 4 | Project Management (CS301)

HTML, CSS, JavaScript, Node.js, Express, MySQL, JWT, Git/GitHub | GitHub + Live Demo

- Co-developed a web-based School Information System for Zambian secondary schools covering student records, attendance, ECZ-based results and reporting.
- Designed the frontend structure, three-tier client-server architecture, role-based access control and database plan.
- Produced the physical design, use-case and process models, and wrote the project documentation.
- Delivered the project in 5 Agile/Scrum sprints (250+ commits) and presented it to the class.

2. InternLink: Internship Placement Portal | Team of 4 | Web Development (361)

HTML, CSS, JavaScript, PHP (PDO), MySQL, Session-based authentication | GitHub

- Co-developed a multi-role portal where students apply for internships, companies manage applicants, and admins approve listings and view reports.
- Built the student interface: dashboard, placement search & details, applications, saved placements, notifications and profile.
- Built the admin interface: dashboard plus companies, students, placements and reports pages.
- Implemented login, registration and role-based access, with shared session handling protecting every dashboard page.

3. Personal Developer Portfolio | Personal Project

HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio website to showcase my technical skills, projects, education, and professional profile.
- Implemented responsive layouts, interactive navigation, project showcases, social links, and a mobile-friendly interface.
- Featured projects including InternLink and Admin Assist, highlighting my contributions and technologies used.
- Deployed the portfolio online for use in internship and professional applications.

CORE SKILLS

- Programming (HTML, CSS, JavaScript, Python, C++)
- Web Development (Bootstrap, Express.js, Django)
- Backend & Database (Node.js, Express, PHP PDO, MySQL, JWT, Session-based auth)
- Tools (Git & GitHub, VS Code, Agile/Scrum)
- System Design & Development
- Problem Solving & Data Structures & Algorithms
- Teamwork & Communication
- Fast Learner & Adaptability

PERSONAL ATTRIBUTES

- Hardworking and self-motivated
- Strong analytical and problem-solving ability
- Good communication and teamwork skills
- Passionate about technology and innovation

INTERESTS

- Building personal and academic web projects
- Exploring new technologies
- Coding
- Gaming
- Playing Football
- Listening to music
